November 2, 2026, 5:00–6:30 p.m.

Hannover Medical School
Lecture Hall G (I01-H0-1130)

Carl-Neuberg Straße 1, 30625 Hannover

Science. Startups. Impact.

GOe2CONNECT - Clinical Innovation Forum

**One Challenge. Three Perspectives.
New Solutions.**

Who is this program for?

The Forum is free of charge and open to everyone interested in the life science and healthcare ecosystem. It rotates monthly between Hannover, Braunschweig, and Goettingen, connecting stakeholders from across the region.

What is the Clinical Innovation Forum?

The Clinical Innovation Forum creates a platform where clinical insights meet scientific discovery and entrepreneurial ambition. The Forum brings together leading voices from medicine, life sciences, startups, and industry to explore how innovation can address today's most pressing healthcare challenges since transforming healthcare requires more than scientific excellence alone to turn unmet medical needs into impactful solutions.

How does it work?

Each edition focuses on a challenge defined by a university hospital in the region. GOe FUTURE and its partners match it with a startup, project team, or technology that addresses it, and an industry partner adds expertise in development and market access. The three discuss the topic in a 50-minute panel in front of a live audience, followed by a get-together.
